Washington, April 24.-Mr. O'Neill, of Pennsylvania, presented the proceedings of a meeting of business men of Philadelphia and a memorial with 1,000 signatures and the signatures of the board of trade of that city, asking the aid of congress in the promotion of the building of American ships to trade with foreign ports, and to establish direct mall communication with the western coast of Africa. On motion of Mr. Cummings, of New York, an amendment was adopted providing for the "actual" traveling expenses of the commission, instead of "necessary" traveling expenses, as provided in the bill.

Mr. Butterworth gave notice that he would ask for a separate vote in the house on the amendment, saving that "actual" traveling expenses might bankrupt the government. This disposed of the civil service commission clause of the bill.

Another amendment offered by Mr. Breckinridge, of Kentucky, to the miut clause, providing that appropriations shall not be available until all laws limiting silver coinage shall have been repealed, was ruled out on a point of

No Settlement of the Strike in Chicago.

FIGHTING FOR EIGHT HOURS.

The First Day of May Llable to See Ali Kinds of Business at a Standstill-A Non-Union Carpenter Assaulted -Various Other Labor Dispatches.

CHICAGO, Ill., April 26.—The disposltlon to strike for eight hours is becomlng almost universal among the trades notwithstanding the intention of the leaders that all other trades should remain at work until the curpenters had wou. But the stockyards and packinghouse employes, stairbuilders, mill carpenters, gastitters, iron molders and harnessmakers have announced their determination to strike, while the tailors, shoemakers, plasterers, lathers, cornicemakers and metalworkers are agitating for the same purpose. So that on May I there may ultiumte be a strike altogether beyond the control of the leaders.

The number of firms involved in the proposed strikes is estimated at 11,572, and the number of employes in those and in collateral industries that may be out of work after May 1, is estimated at about 200,0000 males and about 23,000

Thomas Gilmore, a non-union carpenter, of Chicago, on his way to work yesterday was knocked down and beaten into insensibility by a squad of union mea, for whom the police are searching.

The joint committee, consisting of two members of the carpenters council arbitration committee, two from the Bosses' association, and several members of Mr. Favor's citizen's committe, held a meeting yesterday and arranged to call on President Goldie, of the Carpenters' and Builders' association, to adopt

some method of ending the strike.

Trom President Goldie's remarks this morning it seems probable that some

way out of the trouble may be found. The Master Carpenters and Builders association late last night consented to a conference with a committee from the Citizen's association, the New Boss Carpenter's association and the striking carpenters, with a view to bringing the strike to an end. The old masters, in promising to meet the three committees, made the one condition that they should come separately and appointed the time for each. This is the first concession made by the masters since the strike was inaugurated. If a plan of arbitration is reached it will take nearly a week to settle all the questions now in

The Pittsburg Strlke.

PITTSBURG, April 26 -- The Pan-Haudle railroad officials handed in their reply to the demands of the Federated grievance committee yesterday. What its contents are was not made known, but it is believed to be unfavorable to the men. The supreme council of the railroad organizations was summoned by telegraph and will probably hold their first meeting on Sunday.

The local committee has little doubt but that their action will be sustained by the supreme council. This being the case, it remains for the railroad officials to compromise with the supreme conncil or a strike will result.

The Pennsylvania railroad yard firemen and union station baggagemen have also requested an increase in wages. The baggagemen ask for an increase of \$10 per month.

Brooklyn Carpenters Get Their Hemands. Brooklyn, N. Y., April 26.—The strike of carpenters who were building the stand at the Brotherhood ball grounds, has been settled by the men joining the union.

The break in the old Morganza levce is 600 feet wide, and the break in the Grand levee is 1,000 feet wide and washing rapidly.

The Dacotali will make only one more trip, as the river along Pointe Coupee is falling, and the people mostly prefer to stay there until the flood is over.

THE "DOOM-SEALERS"

Consider the California Earthquake tho Beginning of the End.

SAN FRANCISCO, April 26.—The earthquake shocks caused the greatest excitement among the "doom-sealers" in this city and Oakland, in East Oakland whole families rushed from their homes in their night robes, shouting prayers, and ran toward the high ground. A number of women fainted. Title Jensen, a Swedish girl, broke her leg iu jumping from a second-story window. It is no improbable that the little earthquake will start the whole excitement over the prophesies over again.

A mimoer of persons are reported to be leaving their homes, and the number of pas engers on ontgoing trains is con-

siderably greater than usual. John Phillipson announced this morning that he had had a revelation in regard to the prophecy. The shock, he says, was merely the first sympton of the unheaval that is sure to come. He says that God will not now reveal the time for the destruction of the cities, and that the only way to escape is to leave San Francisco and Oakland and never return.

Weekly Trade Review

R. G. Dun & Company's Regular Report.

THE CONDITION OF BUSINESS.

The Silver Question, New Being Constdered by Congress, Has a Great Deal to Do With the Present Movement of Trade - A Hopeful Outlook for the Iron Market-Other Fluancial Prospects.

NEW YORK, April 26.-R. G. Dun & Company's weekly review of trade says: The markets are all influenced by the prospects of an increase in currency, based on silver. The street has assurance, in telegrams from Washington, that the bill adopted in caucus will be passed, and the addition of at least 54,000,000 of bullion notes yearly is expected to lift all prices.

The average of prices for all commodities are even that the lift is a lift of the lift is a lift of the lift of t

ties rose over 1 per cent. from the 16th to the 22d, but has since deelined about half as much. Opinions are much divided about the effect of the silver bill, if passed, some believing that a brief advance in prices will be quickly followed by a decline when it is found that gold begins to go abroad, but the more common belief is that the measure will work safely stimulating prices and commercial activity to some extent, without disturbing the gold standard values.

Trade reports this week are favorable, excepting from the region affected by the floods in the Mississippi valley. Great damage to sugar plantations seem inevitable. Three of the Trunk lines are interrupted, and there losses will be considerable. At Galveston and Florida business is dull, but at all northern centres of trade the situation is very satis-

The iron business is more hopeful in tone at Philadelphia, but at l'ittsburg the decline in prices continues. Statistics showing that the accumulation of coal in first hands has been reduced since Marc'ı I, have a helpful influence, and encourage the belief that in a few months the policy of restriction in the output will restore the market to a healthy condition. But its condition is far from healthy at present. No im-provement is seen in the woolen manu-facture, and deaver cotton does not help the mills.

The exports of grain continues large, notwithstanding the advance in prices, and furnish the only reasonable excuse for that advance. In any event, a large surplus of wheat will remain on hand July 1, and the reported injury to winter wheat will be, to a great extent, balanced by the increased acreage of spring wheat, which higher prices will cause.

Cotton receipts and exports are both falling far behind last year, and the floods and rains are expected to affect this year's yield to some extent. No reason is perceived, beyond speculative activity, for advance in pork or in oats, but the belief that the currency will be greatly expanded tends just now to render all prices somewhat fletitious.

The treasury has taken in during the past week \$1,900,000 more than it has paid out, but the receipts of money from the interior have kept the New York money market comparatively easy.

The figures indicate a heavy excess of imports over exports for the month, but there are no present symptoms of an outgo of specie.

Failures during the past seven days for the United States 179, for Canada 39. Total 218, compared with 214 last week. For the corresponding week of last year the figures were 186 for the United States, 27 for Canada.

CLAYTON'S MURDERER.

He Confesses to the Crime Just Hefore Dying a Natural Death.

Los Angeles, Cal., April 26.—Last winter, during the floods in this section, a rancher named Thomas Hooper died at Runchito, in this county. It is learned that prior to his death the sheriff's offlcers here collected evidence sufficient, it is alleged, to implicate him in the murder of John M. Clayton, brother of Governor Powell Clayton, of Arkansas. After communicating with Governor Eagle, of Arkansas, they were about to proceed to Ranchito and arrest him when the floods came and cut him off for a few days, and during the time Hooper was taken down with pneu-

monia and died. It is alleged the deceased told a friend, Charles Lewis, that he had killed two men in Arkansas who were concerned in the lynching of his (Hooper's) father, and that there was a third man whom he would yet kill. That man was John M. Clayton.

A Cruel Parent Interferes.

Brazil, Ind., April 26.—At a late hour last night a closely-veiled temale appeared at the Vandalia depot, westbound. An attendant gave her name as Acres. At the instance of her father, William Shoble, she was arrested on a charge of elepement and jailed. Her father complains that she had been spirited from home, and that she was going to St. Louis to marry one Acres. She is aged 17, and is handsome and bears a good name.

"Shovers of the Queer" Taken In. Chicago, April 26.—Two "shovers of the queer" giving their names as Robert Thompson and William M. Furber, who are alleged to have swindled the people of Cincinnati, Indianapolis and other towns in Indiana by means of a \$10 counterfeit bank note, made in the semblance of the bill issued by the Germania National bank of New Orleans, have been arrested here. They have have been arrested here. They have been turned over to the government offi-
